Can **Backlink Energizer** really help you take your business to the next level?

The short answer is, "Yes, it can."

Because one of the most powerful ways to drive more traffic to your web site or blog is get your content to rank high on the front page of Google, Bing and Yahoo.

Get more traffic and your business cannot help but explode.

So how do you get your content to rank? Backlinks.

In fact, all other things being equal, the web page that gets the most backlinks will always rank higher on the search engines.

Rank higher and you'll enjoy more traffic. Get more traffic and it is reasonable to expect you will generate more sales.

//

The challenge is in getting the search engines to find, index and count these backlinks and that is where this *Backlink Energizer review* comes in.

[Unique Article Wizard](#) | [Article Marketing Robot](#) | [Market Samurai](#)

Used properly, it literally forces the search engines to find, index and count the majority of backlinks you have secured and this can create an instant and dramatic improvement in how your pages rank.

What is Backlink Energizer Exactly?

Backlink Energizer is an inexpensive Wordpress plug in created by Steve Aylor to help you get the backlinks you have already created spidered and counted by the search engines.

This is important because if you have done the work necessary to create one thousand backlinks but the search engines only index 100 of them... 90% of your efforts are wasted.

So watch our [Backlink Energizer review](#) video and notice how we use this very simple program to get thousands, even tens of thousands of our links indexed and counted.

Installing and Configuring Backlink Energizer

You install **Backlink Energizer** like any other Wordpress blog plugin. You can upload the program via FTP or use the built in Wordpress installer.

Once installed the user manual will walk you through setting up between 8-10 free accounts with various Web 2.0 authority sites. These sites include Wordpress, Typepad, Blogger, Live Journal, Tumbler, Multiply, Xanga and Posterous.

You can also tie the program into another dozen self-hosted wordpress blogs you may have. This is not required for the program to work but it will enhance the program's ability to get your backlinks indexed, so if you have additional blogs you will want to take advantage of this feature. If not, there is nothing to worry about. You will not be missing out.

Once you have your accounts set you will be guided into finding a number of stable RSS feeds produced by other websites and blogs that are related to your niche in some way. Simply follow the simple instructions and in less than half an hour after triggering your backlink energizer discount - you will be ready to boost all of your links.

Backlink Energizer Discount

If you have set up and configured BLE properly, all you need to do to energize your links is to paste them into an online form and click the link to save them them.

That's it. Done deal. There is nothing else for you to do.

Your job is done and you can go on about the business of building your business.

But the Backlink Energizer is just getting started.

What the program does is it goes and pulls valuable content from the RSS feeds you set up and appends one of your links to the information provided in each feed and automatically posts this new content - with a backlink to your backlink - on one or more of these high value authority sites.

See the magic? Of course this backlink energizer review doesn't do the program full justice so you will want to pick up a copy yourself and give it a shot.
