Clickbank Wealth Formula

[caption id="attachment_1360" align="alignleft" width="250" caption="clickbank wealth formula - not

available"] [/caption]

Clickbank Wealth Formula was a digital product released in July 2010 by Anik Singal and Saj P promising to show you how to make millions online promoting affiliate products.

The basic premise can be summed up simply:

- Find a clickbank product to promote.
- Send people to a squeeze page to collect an opt-in.
- Promote offers to them by email.

Unfortunately the product did not live up to all the hype and it has now been removed from the internet and is no longer available. Which is probably a good thing because a lot of honest, hard-working people stand to lose out big time when a product is "launched" with great fanfare and fails to deliver.

The person investing a product like "clickbank wealth formula" loses, obviously. They can always get their money back but they cannot get the time they invested reviewing and studying the product back. Plus, to make matters worse, what if a person is brand new to the world on internet affiliate marketing and walks away disgruntled and disillusioned?

But the damage often goes much deeper than. Other affiliate marketers and JV partners who promote the product in good faith also stand to lose big time. They lose both time and money to write a review, create the content, and put together a nice bonus package. But worse, if the product turns out to be less than desirable the affiliate marketer or JV partner loses credibility with their customers. Because they recommended it. They endorsed it simply by promoting it.

Clickbank Wealth Formula - Anik Singal

Anik Singal is a very successful and highly respected internet marketer with many successful products under his belt. Perhaps the most well-known was way back in 2005 when he launched Affiliate Classroom - a full-blown internet marketing and affiliate marketing training center. Inside the Affiliate Classroom you were literally taken by the hand and led from general concepts all the way through to advanced search engine optimization techniques, PPC tracking and how to optimize conversions to increase your ROI.

In 2008, Anik was named one of Business Week's Top 25 Best Young Entrepreneurs in the US. He has made millions online in the affiliate marketing arena and has gone on to build a wildly successful business teaching and training others to how to make money online as well. So it was odd to read some of the negative reviews about the Clickbank Wealth Formula. It seemed out of character. For example...

"I bought the product yesterday and have been reviewing it. The product has some value in that it shows you the general system that these guys are using to make a lot of money... But I'm also disappointed, mainly because of all the mis-truths, hype and false statements I'm finding between the sales letter and the product, too many to list here."

"The [Clickbank Wealth Formula](#) is ok but could have been a lot better. The video quality I think is poor and in some cases unprofessional. It could have been a lot better if they had included templates and samples. They talk about squeeze pages but don't give you example files. Something like that would have made the package a lot more valuable and relevant. If you are curious... go for it. But to be honest I don't think you'll be wow'ed by the main product."

"I purchased CB Wealth Formula and will also be asking for a refund. I am a newbie and the program started by telling you it has everything you need to create a profitable website. It promised to show you everything - then it tells you that they won't bother to show you the technical stuff - just to outsource it. But I would like to know what I'm doing before I outsource..."

"Just purchased this product. I really wish I could give it five stars. But honestly it is barely pushing 2 stars. The videos are so tiny you can barely see the screenshots and the sound quality varies from video to video. There are several people teaching different sections which makes it appear outsourced."

Bottomline: Clickbank Wealth Formula

Every product has a shelf life and the Clickbank Wealth Formula was no exception. After receiving a tremendous amount of refunds and many dozens of negative reviews, Anik Singal and Saj P pulled the plug on this one and it is no longer available. Even the original domain has been taken down. Better luck next time, guys.

Bless and be blessed,
