Mike Dillard literally exploded on the scene a few years ago with the release of his first best-seller.

Over the years I've purchased all of his products and the goal of this short *magnetic sponsoring review* is to give you a quick inside look at the golden nuggets you will find within the 56+ pages of densely written copy.

It's well worth the read, well worth studying, and well worth having in your library for a resource.

## Original Magnetic Sponsoring Review

Five years ago if you picked up a copy of **Mike Dillard's Magnetic Sponsoring** book you would have receive a 100+ page spiral bound 8 x 11 book shipped direct to your via Priority Mail. Inside the covers you would have also been blessed to receive a short audio CD promoting the virtues of a new nutritional juice product and the an invitation to take a look at becoming either a customer or a new distributor. You would have also found a full sized blueprint of his entire attraction marketing, lead generation, funded proposal marketing system.

It was a nice package that certainly caught your attention and kept it. In fact I remember staying up late into the evening and literally consuming all 10 chapters in one setting... then going back and highlighting the most important parts to me and I my "magnetic sponsoring review" would have certainly been two thumbs up.

At the time the only way you could become an affiliate of Mike's and earn a commission by using his book to start your own attraction marketing/funded proposal campaign was to join his network marketing downline. You have to join Mike's team in order to participate. Which, if you think about it, made you really want the "system" even more because it was not open to just anybody. It was semi-exclusive.

## Today's Magnetic Sponsoring Review

Today I would still say "two thumbs up" for my magnetic sponsoring review, but for different reasons. Today when you order you get a 56 page instant download. This is a plus because you don't have to wait to receive a physical copy in the mail. The book is also more condensed because Mike has taken out the 40+ pages that used to try to sell you into his primary MLM program. So it's a quicker read today, but you aren't missing out on anything important.

You get 10 chapters of uncut, uncensored Mike Dillard. He shoots from the hip and tells it like it is. He holds nothing back.

For example, you will learn how and why "old school" network marketing is a slow, painful way to build a business and why it is absolutely critical you get online and start using attraction marketing techniques if you ever want to rub elbows with the top income earners in your company at the top of the leader board. You will discover how and why most people fail to build their business and what you **MUST** do to avoid the same fate.

But most important - you'll discover the multi-million dollar roadmap - the same roadmap Mike himself traveled to

build his empire to where it is today. The only downside, the only thing detracting from a top 10 magnetic sponsoring review is the fact that you do only get the knowledge. You don't get any tools. You don't get any advanced nuts-n-bolts training. You don't get anything "set up" and ready to go for you.

You get the inside info, but everything else - the figuring it out and getting it done is left entirely up to you.

But it doesn't have to be that way. You CAN have your cake and eat it to.
