[/caption]

You've read all the **MLM Lead System Pro reviews** and heard some amazing "rags-to-riches" stories.

But are they true?

Is the MLSP system the magic pill *everyone who is promoting it says it is*? For example,

- One promoter claims to be earning over \$10,000 a month after using the system less than 10 months.
- Another claims to have personally sponsored 207 people into his primary MLM business in four months.
- Yet another claims going from \$300 to \$6,000 per month in 30 days!

Of course it is illegal to make false claims when advertising or promoting any product or service so we have to assume all these published claims are true. But can they be replicated by the average person who signs up after reading a glowing [mlm lead system pro review](#)?

Let's take a look close, hard, honest look.

[your video will appear here]

## [MLM Lead System Pro Review - The Good](#)

MLSP was launched in September 2008 by Norbert Orlewicz, Brian Fanale and Todd Schlomer as the network marketing industry's first completely generic, self-contained, self-brandable, automatic follow up, lead generation "funded proposal" system.

Translation, please?

Sign up, set it up, personalize the MLSP program pages, add your primary MLM opportunity to the back office and begin promoting it your perfect target market - frustrated network marketers.

They read your tweets, your forum posts, your classified ads, articles and blog posts and get interested. The click through to your MLSP splash page, opt-in and are immediately added to your automatic email follow up system.

They are AMAZED and MESMERIZED by all the "rags-to-riches" stories and sign up!

You earn a nice commission. Then another and another as they invest more heavily into their business.

So not only have you "funded" your [lead generation](#) efforts, you now have a list of people who are actively looking for a way to promote their primary network marketing opportunity. Which means, usually, they have yet to "crack the code" and make any money. So you contact them. Offer support, accountability, free training and more... the opportunity to work with you! Because you'll teach them, guide them and reveal all the secrets to success.

## MLM Lead System Pro Review - The Bad

When your car breaks down you take it to the mechanic to be fixed. You are buying a solution.

When people invest in "mlmleadssystempro" they often think they are also buying a solution. A magic pill. Sign up, set it up and watch the leads flow like water. But that is not the case.

### **MLSP is nothing more than a powerful TOOL...**

... which is absolutely worthless unless you actually use it.

Which means getting inside, personalizing the pages, and learning how to promote your [article pages](#).

Because nothing happens until you learn how to take what you created within the MLSP system and get it in front of hundreds, even thousands of potential prospects on a consistent basis over an extended period of time.

Without promotion, nothing happens. Which is true for every business. So the questions begs:

If you are having challenges promoting your current business, how do you intend to promote your business using mlm lead system pro? What makes the promotion of this product (and it is a product!) any different than your current opportunity?

## MLM Lead System Pro Review - The Beautiful

[your video will appear here]

The magic behind the incredible MLSP success stories is the amazing training made available by some of the most well-known, most accomplished internet marketers in the world.

[Sign up](#), set it up, [and then learn](#) from the best marketers in the world. Copy them. Follow the instructions. Dig deep and work through the learning curve.

[Then apply what you have learned](#) and take action. Massive marketing action.

And, you too, can watch the magic happen. Guaranteed!
