Over the past four and a half years I have had the privilege and honor to be coached and mentored by one of the super stars in the network marketing industry - Mr. Jordan Adler.

That is, if you can call "hanging out" and chatting over dinner... or walking the beaches of the world together on fun-filled company sponsored cruise... or brainstorming between stage appearances at our company's annual convention... or arguing over which city serves the best sushi... being coached and mentored.

Now, just so you know...

Jordan has built TWO wildly successful network marketing businesses over the past 12-15 years. In the 7-figure annual income range, to be more specific. And he pulled off this amazing 7-figure annual income feat in less than FIVE YEARS with his current program.

## **Beach Money - Creating Your Dream Life Through Network Marketing**

When I decided to build a residual income through MLM a few years ago I made it a point to meet and hang out with Jordan every chance I could get. Why? Because I've discovered "Success Leaves Clues" and all you need to do to produce any result you desire is to find someone who is CURRENTLY producing that result and do the same things.

So did my plan work? Hang out, hang on (to every word), and copy my way to success?

Boy, did it ever! We now have over 10,000 sharp, capable success-oriented people on our team and it is growing like an out of control forest fire every day - all across the world!

## **The Numbers Do Not Lie**

One of the greatest lessons I've learned from Jordan is the "numbers" necessary to build a profitable network marketing business.

Jordan learned this from his mentor; I learned it from Jordan; and now I'm passing it on to you.

**To find one or two solid leaders, be prepared to sponsor and train at least twenty to thirty people. To build a 7 figure income, be prepared to find 4-6 solid leaders.**

Okay. Those are the numbers. But is it true? Can we really rely on these numbers?

My experience indicates they are spot on.

In fact, in his book [\*Beach Money\*](#), Jordan shares the actual numbers that took his from dead broke to earning over a million dollars per year in a previous company. It basically worked out to one leader for every thirty

people who joined his team. And it took 4-6 leaders to create the massive income. **(All book sales go 100% to charity - hint, hint!)**

Today, less than five years after joining our current company, Jordan is again earning a solid 7 figure annual income. His numbers? About one leader for every 29 people who joined his team and he has SEVEN leaders responsible for producing most of the volume.

Hmmm...

So based on the "Numbers of MLM Success", Lisa and I are on a very solid track to reach some amazing income levels. Even more exciting, a review of these numbers keeps me going. Keeps me sponsoring. Keeps me looking for the next person and the next potential leader.

Will this be you? Will you be next in line to create the lifestyle of your dreams.
